# A HOLISTIC VIEW OF A PERSONS JOURNEY THROUGH HEALTH AND SOCIAL CARE WEBINAR

Would you like to be involved in an innovative and unique careers and engagement package which supports both the academic and work experience for students within schools and colleges?

**Join our information sharing webinar to find out more**

The package is delivered by healthcare professional ambassadors and supported by pre-registration medical and non-medical student volunteer ambassadors and includes

- providing a framework to gain a holistic overview of the services a person would access within the health and social care system
- to encourage pupils to consider what career pathways are available within all our health and social care services
- gaining an understanding of how lifestyle choices impact on a person's health and well-being

Hear from students who have experienced the workshops within West Lancashire College, to gain further information and share good practice in relation to developing this exciting opportunity for schools and colleges.

**Thursday 4th November 2021**  
**15:00 – 16:00**
